

CAcert OpenID Connect

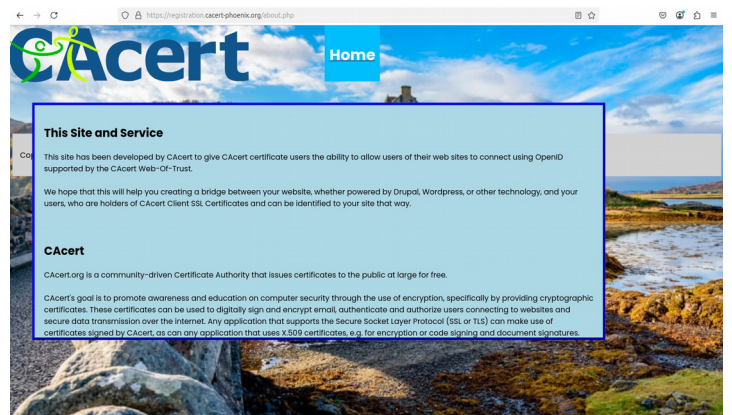

CAcert and Single Sign On

CAcert has developed a method of using your CAcert Client Certificate to facilitate easily signing in to web sites and other on-line resources. This uses the OpenID Connect standard, which is commonly used around the world. This facility can be used by doing the following:

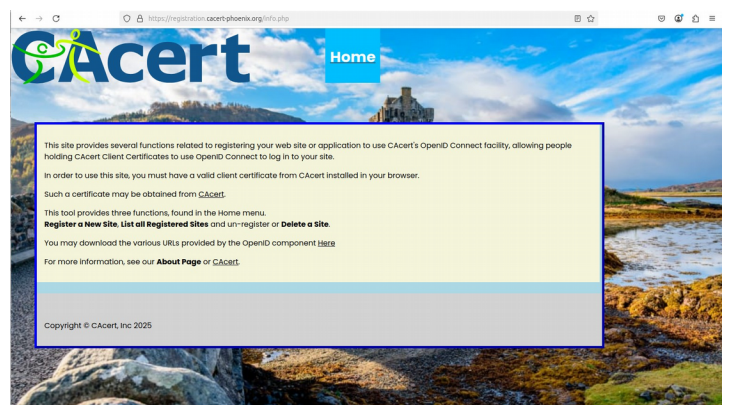

1. Go to <https://registration.cacert-phoenix.org/index.php>, the site to register your Client Certificate and the on-line resource that you wish to use.

2. The About Page, <https://registration.cacert-phoenix.org/about.php> gives some background information about the site and its history.

3. The Info Page, <https://registration.cacert-phoenix.org/info.php> gives a very basic overview of the facilities provided by the site.

Notes regarding the miniOrange Contributed Module.

This module is free for anyone, but has a couple of notable restrictions. Those restrictions are lifted with the subscription (paid) version of this module.

1. First, only one OAuth service can be configured at a time.
2. Secondly, only existing users of the site may use OAuth Login. Another use case that people may desire is for new, authenticated users be automatically added to the Drupal site. This is not allowed with the free version.

Notes regarding the provider of this free service

CAcert.org is the leading free certificate authority. In addition to OpenID Connect, it offers X.502 certificates for more security on the Internet. The tasks are taken over by volunteers within the framework of the CAcert community; the operating costs are covered by donations.

First of all, CAcert is not a service provider or a company, but a community. We are all in the same boat. We can only achieve our goals together, with you, the cooperation of all of us (of all users=members). If you want to help, take a look here: <https://wiki.cacert.org/engagement>

If you are happy with the new functions of **CAcert OpenID Connect for Drupal**, done by our volunteers, please consider to donate: **Donations** IBAN CH02 0077 4010 3947 4420 0 (one-time or small amounts on a regular basis).

CAcert Inc (association), Clos Belmont 2, 1208 Geneva, Switzerland, www.cacert.org
